Gilt Edge Mine Site  
CDs Containing Barrick Gold's and CoCa Mines' 104(e) Responses and Index of Freeport  
McMoRan's 104(e) Response**

Dear Ms. Madigan:

Enclosed are the following CDs and information:

- Two CDs, both containing images of the 3-box collection of documents CoCa Mines, Inc. submitted as a supplement to its 104(e) response of October 2, 2008
- One CD containing the Barrick Gold 104(e) response submitted to EPA in November 2008
- One original set and one copy set of an eight-CD collection containing images of documents Freeport McMoran submitted to EPA on January 22, 2009 as part of its 104(e) response
- Hard copy indexes of bates numbers of documents Freeport McMoran submitted as part of its 104(e) response of January 22, 2009. The indexes are organized by particular document collections that include: 1) Corporate, 2) South Dakota Department of Environment and Natural Resources (SD DENR), 3) Dan Knappes, 4) South Dakota Fish and Game, 5) Ron Graichen, and 6) Ron MacLeod. Note that Freeport McMoRan also produced a collection of U.S. Forest Service documents. Toeroek noticed that a substantial number of these images were not provided in the form of a document grouping but rather as individual pages. There are over 17,000 image files associated with this collection, which converts to an index of over 550 pages. For this reason, Toeroek is not providing you an index of this document collection.

Sincerely,

Kevin Geraci
